### DETAILED ACTION

1. Claims 13-23 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention. Election was made **without** traverse in the reply filed on 4-5-05.
2. Applicant should note, non-elected claims 8 and 9 have been rejoined with the application, and a complete action on the merits for these claims is included herein in an effort to expedite prosecution.
3. It is requested that applicant cancel non-elected claims 13-23 in response to this action to facilitate the issue process if the application is ultimately allowed.
4. The use of the trademarks MYLAR, TEFLON, and KEVLAR used throughout the specification has been noted in this application. These terms should be capitalized wherever they appear and be accompanied by the generic terminology.

Although the use of trademarks is permissible in patent applications, the proprietary nature of the marks should be respected and every effort made to prevent their use in any manner which might adversely affect their validity as trademarks.
5. Applicant should note, in future correspondence, if claims 13-23 are not canceled, the qualifier for these claims should be updated to reflect the "withdrawn" status.
6. Figure 1 should apparently be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled

"Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

7. The disclosure is objected to because of the following informalities: the referenced related applications on page 8 of the instant specification should be updated to include the application numbers, respective filing dates, and respective updated status (e.g. issued patent no., abandoned, etc.). The following lines of the specification contain misspelled words (note in several of these instances, the letter "o" has been omitted): paragraph 3 – line 10, paragraph 6 – line 5, paragraph 41 – line 2, and paragraph 68 – line 9.

Appropriate correction is required.

8. Claims 1-12 are objected to because of the following informalities:  
Claim 1 – line 8, "position" should be –positioned—to remove awkwardness.  
Claim 6, "said closed end" should be –said proximal end—for consistency.

Appropriate correction is required.

9. This application is in condition for allowance except for the following formal matters:

See paragraphs 4-8 above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

10. Claims 1-12 are objected to for the minor informalities noted above but are otherwise allowable.

11. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Note at least Blatt includes binding straps with a slotted winding mechanism.
